2026 HealthSpring℠ Formulary Premier Access 4 Tier (open) List of Covered Drugs or "Drug List"

Please read: This document contains information about the drugs we cover in this plan.

Plans covered

HealthSpring Rx (PDP)
HealthSpring True Choice PPO)
HealthSpring Preferred (HMO)

This formulary was updated 08/06/2025. For more recent information or other questions, please contact HealthSpring Customer Service. Contact information can be found on the back cover of this document. The drug list, pharmacy network, and/or provider network may change at any time. You will receive notice when necessary. HealthSpring is contracted with Medicare for PDP plans, HMO and PPO plans in select states, and with select State Medicaid programs.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this formulary refers to "we," "us", or "our," it means HealthSpring. When it refers to "plan" or "our plan," it means HealthSpring Rx (PDP), HealthSpring True Choice (PPO) or HealthSpring Preferred (HMO). This document includes the Drug List (formulary) for our plan which is current as of 08/06/2025. For an updated Drug List (formulary), please contact us. Our contact information, along with the date we last updated the formulary, appears on the back cover page. You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2027, and from time to time during the year.

Important Message About What You Pay for Insulin: You won't pay more than $35 for a one-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it's on, even if you haven't paid your deductible.

Important Message About What You Pay for Vaccines: Our plan covers most Part D vaccines at no cost to you, even if you haven't paid your deductible. Call Customer Service for more information.

HealthSpring℠

What is the HealthSpring formulary?

In this document, we use the terms Drug List and formulary to mean the same thing. A formulary is a list of covered drugs selected by HealthSpring in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. HealthSpring will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a HealthSpring network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the formulary change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the formulary during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the Medicare rules in making these changes. Updates to the formulary are posted monthly to our website here: HealthSpring.com/GroupPDP or HealthSpring.com/GroupMA.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **Immediate substitutions of certain new versions of brand name drugs and original biological products.** We may immediately remove a drug from our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand name drug or original biological product on our formulary, but immediately move it to a different cost-sharing tier or add new restrictions.

  We can make these immediate changes only if we are adding a new generic version of a brand name drug, or adding certain new biosimilar versions of an original biological product, that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

  If you are currently taking the brand name drug or original biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.

  If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you the drug that is being changed. For more information, see the section below titled “How do I request an exception to the HealthSpring’s formulary?”

  Some of these drug types may be new to you. For more information, see the section below titled “What are original biological products and how are they related to biosimilars?”

Drugs removed from the market. If a drug is withdrawn from sale by the manufacturer or the Food and Drug Administration (FDA) determines to be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our formulary and later provide notice to members who take the drug.

- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may add a new generic drug to replace a brand-name drug currently on the drug list or add new restrictions to the brand-name drug or move it to a different cost-sharing tier or both. Or we may make changes based on new clinical guidelines. If we remove drugs from our drug list, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 30-day supply of the drug.

If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled "How do I request an exception to the HealthSpring Drug list?"

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2026 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2026 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the formulary for the new benefit year for any changes to drugs.

The formulary is current as of 08/06/2025. To get updated information about the drugs covered by HealthSpring please contact us. Our contact information appears on the back cover page.

How do I use the formulary?

There are two ways to find your drug within the formulary:

- **Medical Condition**
  The formulary begins on page 10. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "CARDIOVASCULAR, HYPERTENSION / LIPIDS". If you know what your drug is used for, look for the category name in the list that begins on 10. Then look under the category name for your drug.
- **Alphabetical Listing**
  If you are not sure what category to look under, you should look for your drug in the Index that begins after the List of Covered Drugs. The Index provides an alphabetical list

of all the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

HealthSpring covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs. There are generic drug substitutes available for many brand name drugs. Generic drugs usually can be substituted for the brand name drug at the pharmacy without needing a new prescription, depending on state laws.

What are original biological products and how are they related to biosimilars?

On the formulary, when we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

For discussion of drug types, please see the Evidence of Coverage, Chapter 5 (for MAPD plans) or Chapter 3 (for PDP plans), Section 3.1, "The 'Drug List' tells which Part D drugs are covered."

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** HealthSpring requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from HealthSpring before you fill your prescriptions. If you don't get approval, HealthSpring may not cover the drug.
- **Quantity Limits:** For certain drugs, HealthSpring limits the amount of the drug that HealthSpring will cover. For example, HealthSpring allows for 1 tablet per day for atorvastatin 40mg. This applies to a standard one-month supply (for total quantity of 30 per 30 days) or three-month supply (for total quantity of 90 per 90 days).
- **Step Therapy:** In some cases, HealthSpring requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example,
  if Drug A and Drug B both treat your medical condition, HealthSpring may not cover

Drug B unless you try Drug A first. If Drug A does not work for you, HealthSpring will then cover Drug B.

- **Non-Extended Days Supply**: For certain drugs, HealthSpring limits the amount of the drug that we will cover to only a 30-day supply or less, at one time. For example, members who have not had any recent fill of opioid pain medications within the past 108 days (referred to as "opioid naïve") are limited to a maximum of 7 days' supply of opioid pain medication. Members who have received a recent fill of an opioid pain medication (not opioid naïve) are limited to up to a month's supply of that medication at one time. Other high- cost drugs may be subject to a non-extended day supply restriction, as well.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 10. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the drug list, appears on the front and back cover pages.

You can ask HealthSpring to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the HealthSpring drug list?" on the next page for information about how to request an exception.

Options for Maintenance Medications

Taking the medications prescribed by your doctor (or other prescriber) is important to your health.

We are committed to helping you control your chronic conditions by making it easy for you to receive your maintenance medications. There are several ways we can work together to accomplish this goal:

- Talk with your doctor about whether a 90-day supply of your ongoing, stable medications may be appropriate. Taking these medications every day as prescribed is important for your overall health, and getting 90-day prescriptions of these. Medications can help ensure that you do not miss a dose.
- You can receive a 90-day supply at most retail pharmacies or through one of our mail-order pharmacies.
- Talk to your pharmacist if you are experiencing any new challenges with your maintenance medications.

How can I use my prescription drug coverage to save money on my medications?
There may be opportunities for you to save money on your medications using your HealthSpring coverage.

- Ask your doctor (or other prescriber) if there are any lower-cost generic alternatives available for any of your current medications.

- Explore whether the 'CMS Extra Help' program may offer additional financial support for your medications.
- If your medication is not covered in the HealthSpring drug list, talk with your doctor about alternative medications which are covered on the drug list.

What if my drug is not on the formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Customer Service and ask if your drug is covered.

If you learn that HealthSpring does not cover your drug, you have two options:

- You can ask Customer Services for a list of similar drugs that are covered by HealthSpring. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by HealthSpring.
- You can ask HealthSpring to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the HealthSpring formulary?

You can ask HealthSpring to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, HealthSpring limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.
- You can ask us to cover a formulary drug at a lower cost-sharing level unless the drug is on the specialty tier. If approved, this would lower the amount you must pay for your drug. This applies to the following circumstances:
  - If the drug you are taking is a brand name drug, you can ask us to cover your drug at the cost-sharing amount that applies to the lowest tier that contains either brand or generic alternatives for treating your condition.
  - If the drug you're taking is a generic drug, you can ask us to cover your drug at the cost-sharing amount that applies to the lowest tier that contains either brand or generic alternatives for treating your condition.
  - If the drug you're taking is a biological product, you can ask us to cover your drug at the cost-sharing amount that applies to the lowest tier that contains biological product alternatives for treating your condition.

Please note, if we grant your request to cover a drug that is not on our drug list, you may not ask us to provide this drug at a lower cost sharing tier.

Generally, HealthSpring will only approve your request for an exception if the alternative drugs included on the plan's drug list, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You or your prescriber should contact us to ask us for an initial coverage decision for a drug list, tier, or utilization restriction exception. **When you request an exception your prescriber will need to explain the medical reasons why you need the exception.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can ask for an expedited (fast) exception if you believe, and we agree, that your health could be seriously harmed by waiting up to 72 hours for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than 24 hours after we get your prescriber's supporting statement.

What can I do if my drug is not on the formulary or has a restriction?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or you may be taking a drug that is on our formulary but has a coverage restriction, such as prior authorization. You should talk to your prescriber about requesting a coverage decision to show you meet the criteria for approval, switching to an alternative drug that we cover, or requesting a formulary exception so that we will cover the drug you take. While you and your doctor determine the right course of action for you, we may cover your drug in certain cases during the first *90* days you are a member of our plan.

For each of your drugs that is not on our formulary or has a coverage restriction, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

If you have questions about HealthSpring or your plan, please contact us. Our contact information, along with the date we last updated the drug list, appears on the back cover page.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or visit http://www.medicare.gov.

HealthSpring formulary

The formulary that begins on the next page provides coverage information about the drugs covered by HealthSpring. If you have trouble finding your drug in the list, turn to the Index that begins after the List of Covered Drugs.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., TRELEGY ELLIPTA) and generic drugs are listed in lower-case italics (e.g., *atorvastatin*).

Drug Tier and Cost-Sharing

The amount you pay for a covered drug will depend on:

- Your coverage stage. Your plan has different stages of coverage. In each stage, the amount you pay for a drug may change. Please refer to your *Summary of Benefits* or *Evidence of Coverage Snapshot* for more information about your specific prescription drug benefit.
- The drug tier for your drug. Each covered drug is in one of four drug tiers. Each tier may have a different cost-sharing amount.
- If your plan includes additional benefits as noted on the *Summary of Benefits* or *Evidence of Coverage Snapshot*, you can find the lists of those covered benefits in the 2026 Formulary Addendum document included in your Benefits Booklet.
- **If you qualify for Extra Help**: Your LIS copay level will be based on how the Food and Drug Administration (FDA) classifies certain drugs. Due to this, a generic drug may receive a preferred drug copay, or a preferred brand drug may receive a generic drug copay. Please see your LIS Rider for additional information on these copay levels. Or call Customer Service for further clarification regarding a specific drug.

Drug Tiers
Covered medications are divided into tiers or cost-share levels. Typically, the higher the tier, the higher the price you'll pay to fill the prescription.

Tier 1- Generic Drugs: This tier includes many commonly prescribed generic drugs and may include other low-cost drugs.

Tier 2 – Preferred Brand Drugs: This tier includes preferred brand-name drugs as well as some generic drugs. Keep in mind that the tier name "Preferred Brand Drugs" is just a description of most of the drugs in the tier. It does not mean that there are only brand-name drugs in this tier.

Tier 3 – Non-Preferred Drugs: This tier includes higher-priced brand name drugs and generic drugs not in a preferred tier. There may be lower-cost alternatives for you. Ask your doctor about switching to a covered drug on a lower tier.

Tier 4 – Specialty Tier Drugs: This tier includes high-cost drugs. And are typically the most expensive drugs on the drug list.

Cost-sharing for each tier varies by plan. Refer to your *Evidence of Coverage Snapshot* for your plan's specific cost-sharing amounts. To access a copy of your most recent *Evidence of Coverage Snapshot*, visit myHealthSpring.com. We are not always able to keep all generic medications in the generic tiers. Keep in mind that the name of the tier is just a description of most of the drugs in the tier. It does not mean that there are only that type of drug in the tier.

Below is a list of abbreviations that may appear on the following pages in the Requirements/Limits column that tells you if there are any special requirements for coverage of your drug.

List of Abbreviations

***:** Opioid medication available as a 7-day supply or less for first time opioid user. For continued use this drug may only be available as a one month supply.

B/D PA: This prescription drug may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.

LA: Limited Availability. This prescription may be available only at certain pharmacies. For more information, please call Customer Service.

NDS: Drugs may be limited to a 30-day supply.

PA: Prior Authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

QL: Quantity Limit. For certain drugs, the Plan limits the amount of the drug that we will cover.

ST: Step Therapy. In some cases, the Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

V: This vaccine is provided to adults at no cost when used based on recommendations by the Centers for Disease Control and Prevention's (CDC) Advisory Committee on Immunization Practices (ACIP).
