

Need a pharmacy that works with your Medicare plan?

Learn more about the many national and regional chain pharmacies included in your HealthSpringSM Medicare plan.

Helping you get your medications is part of our commitment to you. That's one of the reasons we have more than 62,000 pharmacies in our network. Our network pharmacies work with your HealthSpring plan so that it's easier to get your covered drugs.

You can use any of our network pharmacies and there's no need to use the same pharmacy every time - unless you want to. You may also fill prescriptions at non-network pharmacies under certain circumstances outlined in your plan's Evidence of Coverage.

This listing shows many of the national and regional chain pharmacies that HealthSpring has contracted with. In addition to the chains shown here, we have contracted with a number of other pharmacies in our network.

Visit **HealthSpring.com/Group/PDP** to view all your options, including network chain and local pharmacies that may not be listed here. Or call customer service for help at the toll free number provided in your enrollment kit or on your ID card.
