

Dental

Caring for patients

Our members have access to Medicare Advantage supplemental dental benefits managed by Cigna Dental.

To identify members with dental coverage

You can identify whether members have dental coverage by their HealthSpring Medicare Advantage ID card. It will reference the dental coverage next to the words **Dental Plan**.

If you have questions about dental coverage, visit [Cigna for health care professionals](#) or call the number on the member ID card.

Medically covered dental services

You may bill some dental services to HealthSpring under the member’s medical benefits if the service is considered inextricably linked to the clinical success of other Medicare-covered services. Refer to the [Centers for Medicare & Medicaid Services](#) for **examples of what may be covered**.
